Electrode pad: Ø 20 mm
Connection area: 10 mm wide
Overall length: 44 mm

Electrode Ø 43 mm

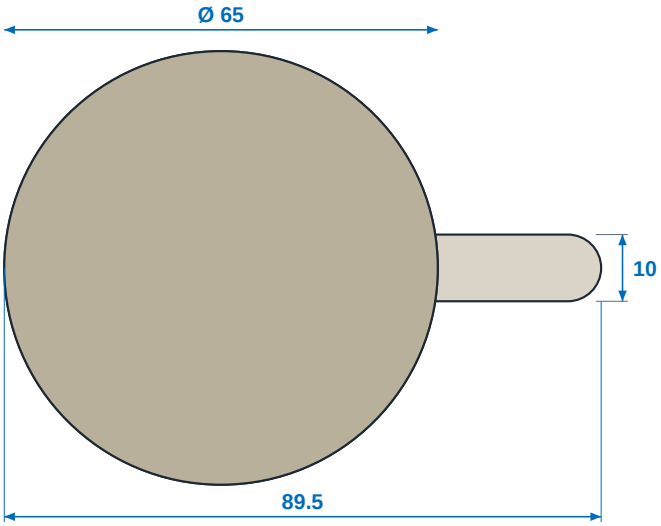

Electrode pad: Ø 43 mm
Connection area: 10 mm wide
Overall length: 67.5 mm

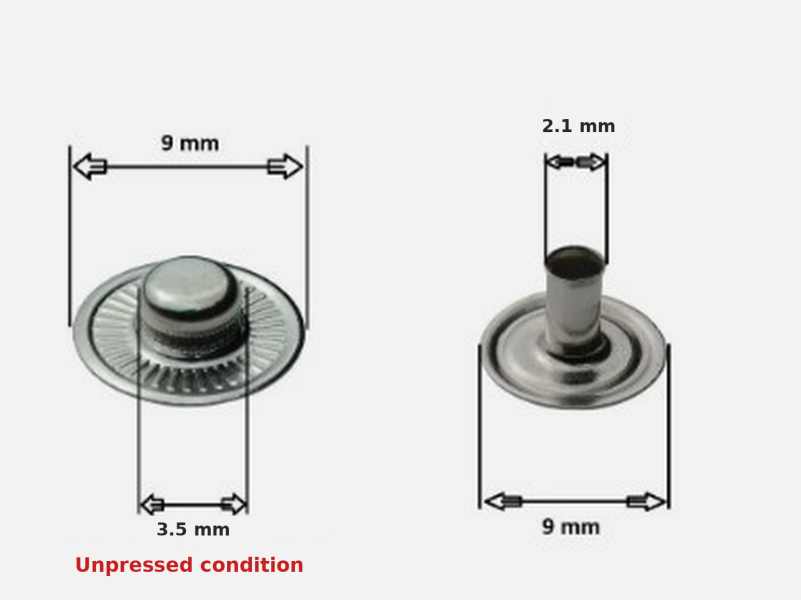

Electrode Ø 65 mm

Electrode pad: Ø 65 mm
Connection area: 10 mm wide
Overall length: 89.5 mm

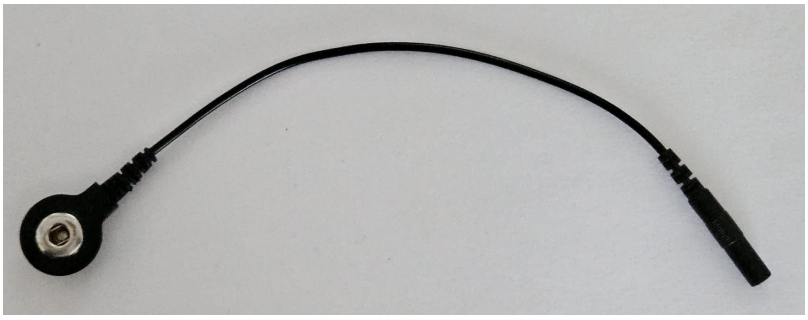

SNAP FASTENER – TECHNICAL DRAWING

Snap fastener used for electrodes with snap fastener (pos. 2, 4, 6 and 8)

- Stainless steel snap fastener, silver, two-part: stud (left) and post (right).
- Dimensions in unpressed condition: stud Ø 9 mm, head Ø 3.5 mm; post base Ø 9 mm, shaft Ø 2.1 mm.
- The snap fastener is pressed onto the embroidered connection area of each electrode (one snap fastener per electrode).
- Illustration not to scale.

ACCESSORY – ADAPTER CABLE 2 MM PIN TO SNAP

Adapter cable 2 mm pin to snap, price per piece (pos. 9)

- Connects the snap fastener of the electrodes to stimulation or measuring devices with 2 mm pin connectors (e.g. TENS/EMS units).
- Length: 17 cm. Snap side fits the stainless steel snap fasteners shown above.
- One adapter is required per electrode. Please check pin compatibility with your device before ordering.
